

Energy price surcharges

July 2022

EN

Energy price surcharge overview

The surcharge level is valid as shown below from **01-July-2022**.

Route	Surcharge per unit (excl. VAT)
Kaldenkirchen <> Domodossola ¹	€ 39,-
Calais <> Domodossola ^{1,2}	€ 67,-
Ashford <> Calais ³	€ 20,-

The surcharge will be added to any transport unit booked or re-booked by or on behalf of the customer for the confirmed transport date as per above mentioned start date. The surcharge is visible for clients during the booking procedure and will be added automatically during the invoicing process.

The surcharge level remains in place until further notice.

¹This surcharge level is based on procurement price for CargoBeamer on the German stretch of the rail path and is calculated in relation to the average electricity future price of "German Power Future" (visible for interested parties via [Link](#)) for the period 16-July-2022 until 15-August-2022. CargoBeamer is not responsible for the correctness of the data on external data sources.

²This surcharge level is based on the fixed procurement price for CargoBeamer on the French stretch of the rail path.

³Surcharges including Ashford are always an addition to another lane. It is valid as single trip for the following lanes:

- Perpignan <-> Ashford
- Calais <-> Ashford
- Domodossola <-> Ashford
